# Digital governance and civic technology

Creating public value thru collaboration

November 2018-

Natalia Carfi- Deputy Director  
[opendatacharter.org](https://opendatacharter.org)

Open data holds the promise of helping solve tough policy problems, improving governance and government responsiveness, and promoting more inclusive and equitable societies.

**Our goal is to embed open data as a central ingredient to achieving better solutions to the most pressing policy challenges of our time.**

We seek to ensure that responses to the problems governments face are data driven and participatory, and that this influences how governments are building their broader data infrastructures and information systems.

# Who we are

The Open Data Charter is a collaboration between governments and experts working to open up data. It was founded in 2015 around six principles for how governments should be publishing information.

The shared aspiration is that data should be **open by default, timely and interoperable.**

# Existing Global principles

1. Open Data by Default

2. Timely and Comprehensive

3. Accessible and Usable

4. Comparable and Interoperable

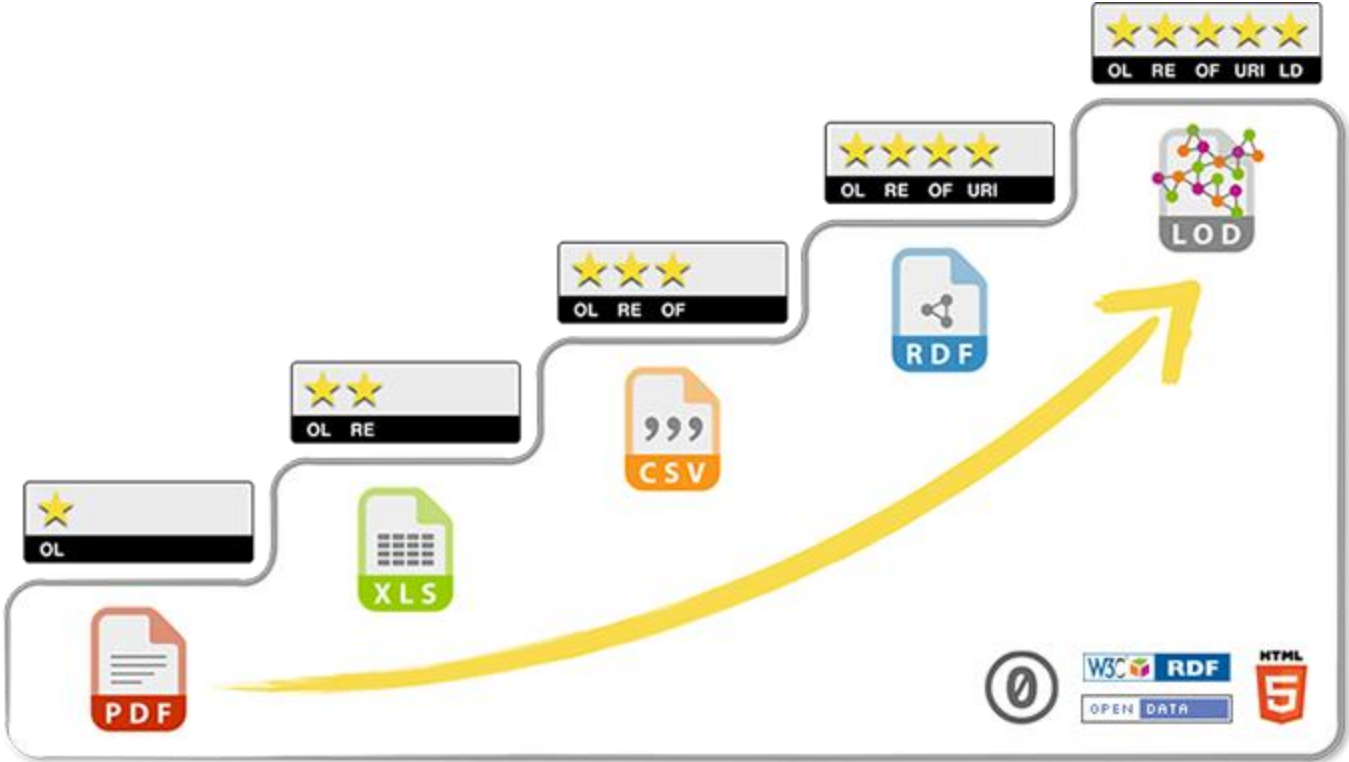

5. For Improved Governance and Citizen Engagement

6. For Inclusive Development and Innovation

# Civic tech + openness

The screenshot displays the Civic Stack application interface. At the top left is the 'Civic Stack' logo, and at the top right is a 'Subir aplicación' button and a menu icon. The main content area features a grid of project cards. Each card includes a header image, a title, a description, and a social media handle with an upward arrow and a count.

| Project Name        | Location  | Description   | Handle          | Count |
|---------------------|-----------|---|-----------------|-------|
| DemocracyOS         | Argentina | Una plataforma diseñada para tomar buenas decisiones juntos. Infórmate, debate y vota.            | @DemocracyOS    | 14    |
| Acá No Hay Luz      | Argentina | Mapa para generar reportes de los cortes de luz en Capital Federal y otras Ciudades de Argentina. | @acanohayluz    | 9     |
| Explica la ley      | México    | Proyecto para explicar las Leyes en un lenguaje simple y directo.                                 | @CodeandoMexico | 6     |
| Caminos de la Villa | Argentina | Mapeo y pedidos de información sobre obras públicas en las villas de Buenos Aires.                |                 | 5     |
